

**Key**

- Proposed turbine
- 2km radius indicator from site centre
- 5km radius indicator from site centre
- Turbine hub and blade tip may be visible
- Turbine blade tip may be visible

**Notes:**  
ZTV created using NextMap Britain@ 5m resolution Digital Surface Model (DSM).

The DSM does account for the screening influence of buildings, hedgerows, trees, woodland and other landscape elements or features.

**Sharpness Turbine Dimensions:**  
Blade tip height: 122m  
Hub height: 80m

**Project name:** Sharpness Docks Wind Turbine

**Title:** Combined Zone of Theoretical Visibility within 5km of Turbine

**Date:** 05/12/2011  
**Scale @ A3:** 1:40,000

**Rev:-** A3 **Figure:** 9.2b
